

Structured British Online Education

The Cambridge International Online School

IWS Online School
is a registered
online Cambridge
International School

We are proud to be part of
Cambridge International's
community of schools.

“

Welcome to IWS Online School

Education is one of the most significant investments a family makes. At IWS, we believe that a school's primary role is to provide a stable, clear environment where students can find their confidence and reach their potential.

Our approach is straightforward: we combine the academic rigour of the Cambridge curriculum with the flexibility of modern online learning. We do not just deliver lessons; we provide a structure that supports growth. Our teachers act as dedicated mentors, ensuring that while students learn to be independent, they are never left without guidance.

Whether your child is beginning their education in Primary or preparing for university in the Sixth Form, our commitment remains the same: to deliver high-quality British education with clarity, consistency and care.

Matt Vickery Executive Principal

A different kind of online school

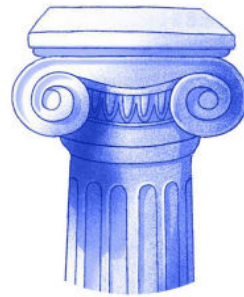

IWS is a registered Cambridge International School offering British online education built on certainty. Students thrive when expectations are transparent and support is consistent, so our entire model rests on three principles.

01

Clarity

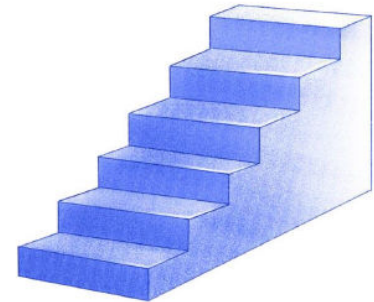

We keep learning, communication and expectations simple and easy to follow.

02

Structure

We create calm, reliable systems that help learning stay organised and manageable.

03

Growth

We focus on steady, meaningful progress that helps learners move forward with confidence.

Structured British Teaching

Structured British Teaching

The Success Network

The Learner Pathway

Technology with Purpose

We believe online learning works best when it is organised.

Our lessons follow a stable, Cambridge-aligned format: explanation, guided practice and recap.

This consistent rhythm supports focus, reduces confusion and ensures students know exactly what is expected of them each week.

The Success Network

Structured British Teaching

The Success Network

The Learner Pathway

Technology with Purpose

At IWS, a student is never just a name on a register.

Our Success Coach system ensures every child has a dedicated mentor, separate from their subject teachers, to help with organisation, motivation and wellbeing.

They are the steady guides who ensure no learner is left behind.

The Learner Pathway

Structured British Teaching

The Success Network

The Learner Pathway

Technology with Purpose

We do not just teach to the test. We teach for growth.

Our Discover, Create, Lead philosophy ensures that as students age, they gradually build the independence and critical thinking skills required for university and beyond.

It is a clear path to lasting academic and personal progress.

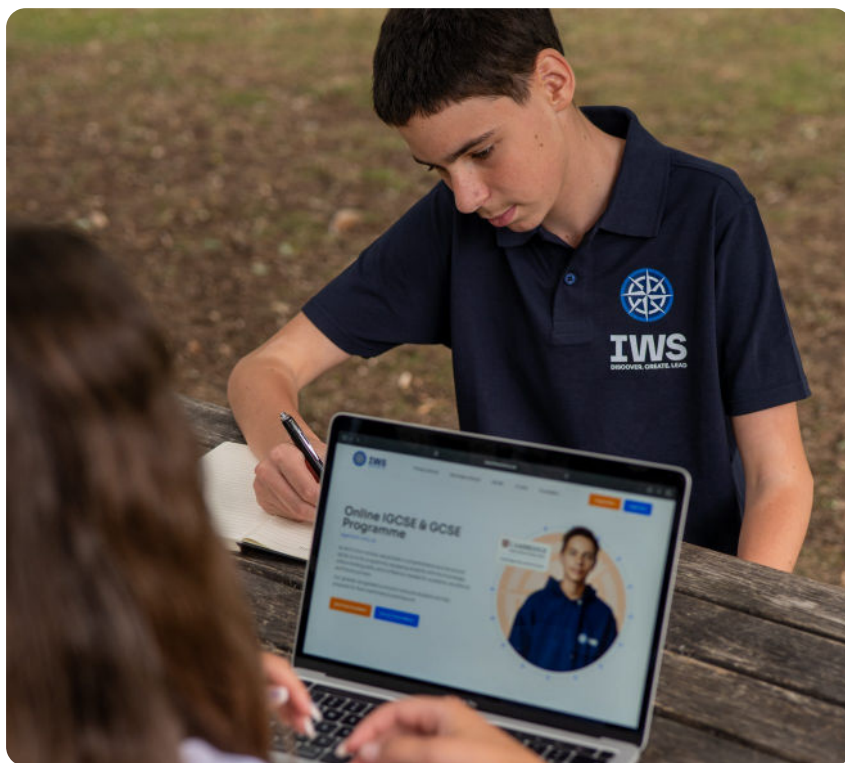

Technology with Purpose

Structured British Teaching

The Success Network

The Learner Pathway

Technology with Purpose

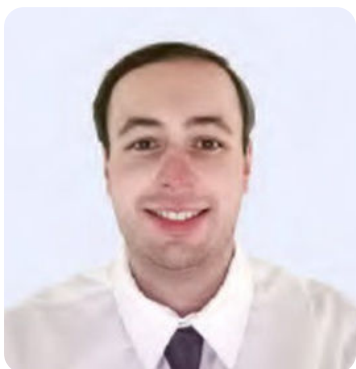

We use technology to simplify learning, not complicate it.

Our platform creates a calm, distraction-free environment where all resources, including lessons, recordings and assignments, are housed in one intuitive place.

This allows students to focus purely on their studies.

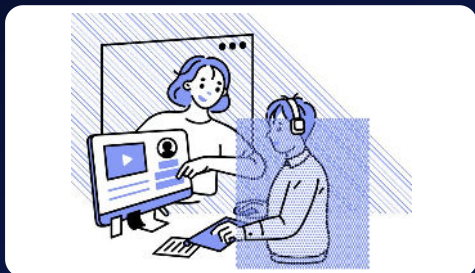

Qualified, experienced, subject specialists.

A school is defined by the quality of its teaching. Every IWS educator is a qualified professional and a dedicated subject specialist. Beyond academics they act as mentors, so your child feels seen, valued and supported.

Same curriculum. **Three ways to learn.**

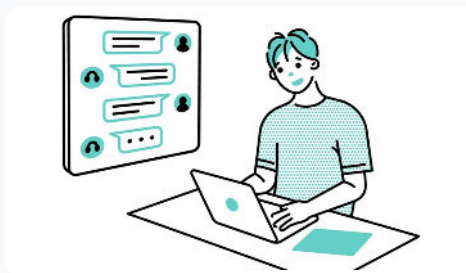

Every family has a different rhythm. The Cambridge quality stays constant; you choose the level of interaction that fits your life.

IWS Academy

The complete British online school experience

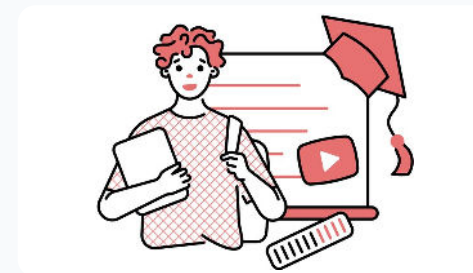

Live scheduled classes, global classmates and dedicated performance mentorship.

IWS Bridge

Strategic subject support

Combine your existing commitments, or your current school, with live Cambridge lessons.

IWS Foundation

Self-directed study

Full access to our Cambridge resource library. The most direct route for the independent learner.

COMPARE**IWS Academy****IWS Bridge****IWS Foundation****Teaching**

A full weekly timetable of live lessons where students interact with teachers and peers in real time.

Students attend one live lesson per subject each week to consolidate their learning.

No live lessons. Learning relies on our library of recorded lessons.

Assessment

Teacher-marked assessments and personal feedback for assignments and mock exams.

Auto-graded assessments for both topic quizzes and unit assessments.

Formative auto-graded assessments to unlock subsequent content.

Support

Coaching focused on personal growth, future pathways and university preparation.

Access to success coaching, skill-building workshops and our success team.

Ongoing support from our success team for academic, technical or general queries.

Community

Full participation in the House system, extracurricular clubs and forums.

Full participation in the House system, extracurricular clubs and forums.

Full participation in the House system, extracurricular clubs and forums.

The full digital library

Access to the IWS platform, including lesson materials, quizzes and modules.

No hidden costs

No additional textbooks or external software are required.

Examination access

Students sit official Cambridge examinations at a local centre. Families register with the centre directly, and we guide you through the process.

One progression, seven to nineteen

Each stage builds on the one before it, so a student who joins us at seven and leaves us at nineteen never meets a gap.

Primary School

Ages 7 to 11

A confident transition to Secondary education.

Lower Secondary

Ages 11 to 14

Full preparation for the demands of IGCSE.

IGCSE

Ages 14 to 16

Internationally recognised qualifications.

A Levels

Ages 16 to 19

Applications to universities worldwide.

University Foundation

Ages 16 to 21

A one-year route to university.

AGES 7 TO 11

Primary School

Primary education at IWS provides a calm and structured start to online schooling. We focus on establishing strong foundations while nurturing a love for learning.

Our qualified teachers guide students through a stable daily routine that balances screen time with active, offline tasks.

Curriculum

Maths · English · Science · Computing · Global Perspectives

Assessment

Internal progress checks only. No external exams.

Outcome

A confident transition to Secondary education.

AGES 7 TO 11

Primary School

Three ways to study the same Cambridge curriculum. Fees shown are for the full academic year.

- End-of-year report
- Feedback on submission

Full package

£1,500

AGES 11 TO 14

Lower Secondary

Secondary education at IWS bridges the gap between childhood curiosity and academic seriousness. We encourage students to take ownership of their learning while providing the safety net they need to grow.

Our consistent weekly structure provides the stability students need to manage this transition, and builds the study habits the IGCSE years demand.

Curriculum	Maths · English · Science · Computing · Global Perspectives
-------------------	---

Assessment	Internal assessments mirroring IGCSE style.
-------------------	---

Outcome	Full preparation for the demands of IGCSE.

AGES 14 TO 16

IGCSE

Academic rigour takes centre stage. We provide a distraction-free environment where students can focus entirely on subject mastery.

We do not leave grades to chance. Frequent checks ensure students are exam-ready well in advance of their Cambridge examinations.

Core	Maths · English · Combined Science
Electives	Computer Science · Business Studies · Global Perspectives · Economics · Spanish · History · Psychology
Assessment	Official Cambridge IGCSE examinations.
Outcome	Internationally recognised qualifications for Sixth Form.

AGES 14 TO 16

AGES 16 TO 21

University Foundation

The University Foundation Programme is a one-year qualification accredited by OCN London. It offers an alternative to A Levels for students who prefer coursework to high-pressure examinations.

The programme focuses on consistent application and practical skills, and is assessed entirely by coursework with no final examinations.

Course options

Business and Management · Social Science and Law ·
Art and Design · Engineering and Computing

Assessment

100% coursework and internal assignments.

Outcome

95% of students progress to one of 165+ university pathways.

A clear path to joining IWS

Our admissions process is designed to be straightforward, so you can be sure IWS is right for your child before you make any commitment.

- | | | |
|-----------|--------------------------|---|
| 01 | Discovery call | Book a conversation with our admissions team. We discuss your child's needs, answer your questions and recommend the right pathway. |
| 02 | Trial lesson | Experience our teaching firsthand. Your child joins a taster session to see how our platform and teachers work. |
| 03 | Application | Once you are ready to proceed, submit your application form to confirm your intent to join. |
| 04 | Planning and fees | We prepare a transparent fee agreement and help you select subjects. There are no hidden costs. |
| 05 | Welcome aboard | Registration is complete. You receive your login details, access to the platform and a welcome from the Success Team. |

Let us discuss the next steps

Whether you are ready to apply or would simply like to learn more, our team is here to guide you from your first question through to your child's first lesson.
